### Pla d'Equipaments de Nou Barris

El Pla d'equipaments és una eina de planificació global que recull les necessitats i disponibilitats en l'àmbit territorial del Districte de **Nou Barris** en matèria d'equipaments i proposa un pla d'inversions a curt, mitjà i llarg termini.

El Districte vol dur a terme un **procés diagnòstic** per recollir les necessitats d'equipaments nous. Vol incorporar en aquest anàlisi les visions i opinions de la ciutadania i teixit associatiu i veinal.

Al final del procés hauran concretat quins nous equipaments creïrem necessaris en el futur, i que, per tant, es proposen per a que amb posterioritat a una validació tècnica puguin estar conte...

Lluís Ferrer, Micaela Ceja Zarate, Toni Tasa 25/10/2017

La nueva normativa especifica 12 contenedores diferentes (frente a los 6 que hay ahora). Se propone mas sanciones para aquellos que no reciclan y que las sanciones sean proporcionales al volumen de negocio. También proponemos que la norma incorpore campañas de comunicación a la ciudadanía, entidades y empresas, junto a un plan de formación.

- Sancionar aquellas personas, entidades y empresas que no reciclen, o lo hagan incorrectamente, usando los 12 contenedores.
- Crear un portal de referencia con indicadores de reciclaje
- Crear un sistema formativo para el reciclaje
- Crear una campaña anual de concienciación sobre el reciclaje

## INTRODUCCIÓN

Las JAM son las jornadas anuales de Metadecidim, la comunidad de Decidim: la plataforma digital de participación para ciudades y organizaciones. Una plataforma basada en software libre y abierta a todos. Las JAM nacieron a finales de 2016 como un proceso de participación en el Decidim Barcelona, la instancia de Decidim en el Ayuntamiento de Barcelona. Durante 2017 el proceso de participación se transformó en una propia comunidad (Metadecidim) con el fin de establecer un **espacio de pensamiento, cooperación y de trabajo público-común sobre Decidim.**
